

STOP THROWING MONEY INTO YOUR GENERAL WASTE BIN

A simple food waste collection and composting service for commercial kitchens: restaurants, shopping centres, canteens, guest houses and hotels.

WE MEASURE.

WE RECORD.

WE REPORT.

**You manage better.
You save more.**

Helping commercial kitchens prepare for South Africa's move towards **zero organic waste** to landfill.

Bokashi Bran 
food waste composting

What happens to all the food waste from your kitchen?

**VEGETABLE
PEELINGS
AND TRIM**

**PLATE
SCRAPINGS**

**BAKERY /
BREAD WASTE**

**COFFEE
GROUNDS**

**EXPIRED OR
SPOILED STOCK**

**MEAT AND
DAIRY TRIM**

Unfortunately, this valuable information is lost the moment it enters your general waste bin.

With Bokashi Bran®, every kilogram is measured, recorded and reported.

HOW IT WORKS

1
Separate food waste, into sealed 50-litre drums positioned in your kitchen or back-of-house area.

2
Treat with Bokashi Bran®, sprinkle at each dosing line marked inside the drum, food waste ferments instead of rotting, so no smell and no flies.

3
Weekly or monthly collection: our team weighs every drum, records the weight, empties it into the truck, and your team washes the drums for reuse.

4
Receive reports, monthly collection and weight reports, plus an annual carbon footprint savings certificate.

MORE THAN WASTE COLLECTION

**Better cost
control**

**ESG
reporting**

**Future
compliance**

**Trusted experience
(14+ years, 100-
commercial kitchens)**

LEGISLATIVE URGENCY

**Liquid Ban
from landfill
(2019)**

**WASTE WITH pH
below 6 or above
12 banned from
landfill**

**National Waste
Management
Strategy 2020**

**Carbon Tax Act
15 of 2019**

**Target of zero
organics to
landfill by
2027**
